

Drywall and Thin Coat Beads

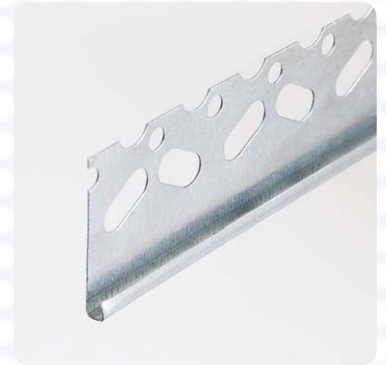

Galvanised beads for internal thin-coat plaster application.

Locusrite Drywall Arch Stop Bead

Description and Application

Available in 2.4m and 3.0m lengths in galvanised material only.

Drywall Arch Stop Bead is used to provide a precise straight clean finish and also reinforce one-coat plaster on its edge. Can also be used for slight curves in plaster finish because of its slightly malleable condition.

Drywall Arch Stop Bead is available in boxes of 50 lengths per carton.

Code	Material	Length (m)	Size (mm)
G3ARSB24	Galvanised Steel	2.4	3
G3ARSB30	Galvanised Steel	3.0	3
