

Drywall and Thin Coat Beads

Galvanised beads for internal thin-coat plaster application.

Locusrite Drywall Feature Bead

Description and Application

Available in 3.0m lengths in galvanised material only.

Drywall Feature Bead is used to form a decorative shadow line at plaster edge, at door and window reveals and other joinery features on thin coat plaster application only.

Available with or without a return flange - (engaging or abutting).

Engaging shown

Drywall Feature Bead is available in boxes of 50 lengths per carton.
