

Drylining Tapes

A Range of professional internal plastering joint tapes.

Premier Bead Paper Joint Tape

Description

Locusrite Premier Bead Paper Joint Tape is a creased, paper roll, manufactured from cross-fibre paper giving strength through the width and length of the tape.

Application

Locusrite Premier Bead Paper Joint Tape is designed for reinforcing joints and internal corners on gypsum drywall interiors.

The tape is perforated and centre creased to enable excellent bonding. The roll is supplied in a dispenser box and is easily cut to length. It is applied using standard jointing compound. No nails or special tools required.

Locusrite Premier Bead Paper Joint Tape is available in boxes of 10 with 56 boxes per pallet.

Code	Description	Width (mm)	Length (m)
