

Metal Lath and Mesh

Range of expanded metal sheets and coils for internal and external plaster key applications and anti-crack control.

Soffit Vent Mesh

Description and Application

Stainless Steel Soffit Vent Mesh is for use in new build properties. It is used over vents in soffits to allow air flow to prevent condensation but prevents access to birds and insects. It is lightweight and supplied in a dispenser.

Soffit Vent Mesh is fixed over the ventilation holes to prevent birds and insects entering the roof void

Ventilation holes in soffit

Soffit Vent Mesh is supplied in boxes of 10.
